

To the FCC—

It is my opinion that K-Love is vitally important to our community by spreading and encouraging the goodness of man and the love that God has for all of us. There are many, many cars with K-Love stickers on them (this is why I tried this station) and there are many people who depend on this station for their spiritual health. By denying K-Love access to its listening audience, because of LPFM, would be denying this important element in many lives. In this era of great uncertainty, hardship for many and the continual threat of terrorism, the uplifting sounds of K-Love fill a real community need. It is wonderful to laugh, sing and feel good about SOMETHING! Please do not jeopardize K-Love position in the lives of so many.
